No 14

## News Notes

Lou King was in New Dayton on Wednesday of this week.

Thursday was awful hot. The thermometer got disgusted and quit working.

W. Palmer and H. Bishop were in Magrath for the Ball game on Wednesday afternoon.

Mrs. Lindon Larson passed away at her home on Thursday afternoon following a series of complications.

Dr. and Mrs. Leech and Miss Walcott and Mr. and Mrs. Rutt and family were visitors at Waterton Park on Sunday last.

The name of Maurine Redd honor student in Mr. Kirkham's room was omitted from last week's list. We are glad to correct this error.

A heat wave swept over Chicago the first of the week and resulted in 13 deaths from drowning and prostrations. The mercury reached 90 degrees in the shade.

The district just west of Lethbridge and north of the Belly River is to be tested for oil by several strong financial concerns and oil companies. Test holes are still being sunk in the country south of Raymond, on the Rodenback and adjacent farms.

George Godfrey, the battling negro of Philadelphia, has lost his license as a boxer because he fouled Carnera in the fifth round of their bout on Monday evening. He only received \$5,000 of the \$10,000 purse because of the foul.

A Board of Trade was organized in Stirling on Saturday last with F. D. Merrill as President, N. C. Peterson Vice-President and Willis A. Fawns Secretary. Congratulations Stirling, a Board of Trade is a great factor for good in any town.

The Softball schedule is completed now. It would be a good idea to draw up another one with probably four teams and get them signed up so that each captain knows just who he has to use. The six teams appear to be too many as usually half the line-up, except the Merc. Staff, were picked out of the spectators. This game is too much fun to be dropped now and some of the older men and the fair sex too are missing barrels of fun by not getting in on this sport.

The Southern-Cross the tri-motored plane which carried Kingsford-Smith and his three companions from San Francisco to Australia two years ago landed early Wednesday morning in Harbor Grace Newfoundland. Their object was New York, but the last part of their flight was in a dense fog where they lost their way and as soon as they could locate themselves with fuel getting low, they landed. They will refuel and fly to New York and then to San Francisco. This will make a trip around the world for this machine and its owner.

#### NOTICE

The children's Tonsil Clinic will be operated at the home of Mrs. Boyson on Monday, Tuesday and Wednesday, July 7th, 8th and 9th. Those interested please arrange dates with Mrs. Boyson or Dr. Leech.

#### MARRIED

Mr. Welburn VahOrman and Miss Georgia Mendenhall were married in the Cadston Temple Wed. June 25. Both young people are well known and highly respected here and wish to have the best wishes of their many friends for a long and happy married life.

#### NOTICE

A special meeting of the G.W.V.A. local will be held in the Town Hall at 8 p.m. TONIGHT (Friday, June 27th) Every vet should attend. IMPORTANT.

## Everything Is Now Ready

## Swatfest at Magrath

### Shower Very Successful

Tuesday evening witnessed a happy group gathered at the home of Mrs. Wilford Meldrum to do honor to Mr. and Mrs. Lester Whetten who were recently married at Cardston.

Lively games started the ball rolling, and were participated in by about sixty, for fully an hour. A light lunch was then served during which time many little fairies were busily engaged, depositing suspicious looking parcels in various nooks and corners about the house. Evidently they were also doing their best to grant the unspoken wishes of those present for presently Mr. Whetten appeared quickly and quietly upon the scene, making himself quite at home among the fair sex.

New Interest was soon aroused and was at its height when a pretty little fairy in the person of Mildred Boyson appeared, wand in hand, in all her splendour. Introducing herself as a representative of the host of active fairies she directed, in verse form, the happy couple to the carefully hidden presents one by one. A lively game of "Hide and Seek" ensued in which the bride groom was the main participant. This created a lot of amusement, he cautiously searching under

beds, on cupboard shelves and in dark cellars, each time returning with a new parcel for his blushing bride to unwrap.

Beautiful and expensive gifts were on exhibition and Mrs. Whetten was thrillingly elated with them all as she heartily thanked her host of friends.

The fairies work now having been performed she made her graceful exit, bidding everyone adieu.

At the dispersion of the crowd many words of congratulations and hearty wishes for a bright future were showered upon the newly weds as they bade all their friends good bye.

They left on the morning of the 25 for Provo, where they are residing.

May the fairies ever attend them as a future reminder of the friends they leave behind.

Little Mildred Boyson as a Fairy Godmother entertained Cinderella and all her friends at a birthday party Wed. Afternoon. Lila Walton as the transformed Cinderella and Verda Larson as Prince Charming received prizes, also Margaret Brandly, Gunivere Redd, Olive Brandly and Theodore Redd carried their parts particularly well. Dainty refreshments concluded a pleasant afternoon.

## Raymond Horticultural Society

The Raymond Womens Institute at a recent meeting decided to sponsor a local Horticultural Society and in conjunction with this a flower show. A committee was appointed to meet with D. L. Gilbert, organizer from the School of Agriculture; this meeting took place at the home of Mrs. T. Allen on June 9.

It was felt that such an organization should be a citizen affair rather than localized in any individual organization. So when the directorate was appointed a representative was appointed from most of the organizations in town.

The Ideal of the Society is: To beautify the homes and the town of Raymond by growing suitable flowers and vegetables, also to interest the children in the things beautiful. Lastly that a flower and vegetable show will be held each year around the last week in August.

The Directorate is as follows:— Patron—Mr. D. Fawns.

Hon. Pres.—Mayor Cope.  
President—Mr. Stewart Card.  
Vice Pres.—Mrs. Webster (W. I.)  
Sec. Treas.—Mrs. C. Wall (R. S.)  
Mrs. Grey, (R. S.) Mrs. E. Neilson (U.F.W.A.), Mrs. T. Allen (L. A.I.) and Mr. Perks.

The Object (Immediate) to canvas for membership (free) first year; but it be understood that member exhibit at Flower and Vegetable show in August.

Business men and others will be solicited for prizes.

Possible List of Flowers to be Shown Sweet Peas, Asters, Stocks, Dahlias, Gladiolas, Petunias, Marigolds, (African, French, Calendules), Clarkia, Mignonette, Pansies, Geraniums, Ferns, Zinnias, Candytuft, Mixed Bouquets, Mixed Bouquet Children 12 years and under, Mixed Bouquets Children Open, Foliage plants, any other Flowering plant, (Open) Best Exhibit in the show.

Let's boost the Flower Show

### Notes from the A.C.

The Alumni Association are holding the Annual Reunion on Friday July 4th starting at 2 o'clock p.m. and lasting all afternoon and evening.

The School Fair Show Course will be held from July 7-12 inclusive. The local winners are: Earl Mendenhall and Jimmy Perks.

Wes. Smith, Agronomist who is carrying on Chemical work with weeds has recently received a Sunshine Recorder and a Recording Hygrometer (to determine relative humidity of air).

Principal O. S. Longman was a visitor at the MacInlyre Ranch on Wednesday afternoon.

Mr. E. L. Grey, Provincial Crops Commissioner was a school visitor on Tuesday afternoon.

Mrs. Longman, Mrs. Asplund Mrs. Lila Gilbert, Miss Peterson and Miss Morrison were joint hostesses at a shower held at the home of Mrs.

Longman on Thursday evening, for Miss Jessie Redig a bride-to-be of next month. The guests were Miss Redig's former Raymond pupils and numbered approximately 60. A splendid time was had and Miss Redig was a recipient of many beautiful and useful presents which went to show of the high esteem in which she was held.

Quite a number of local people went to Magrath Wednesday and watched our local nine win their first league game.

Jimmie: Uncle, will you go down on your hands and knees for a few minutes?

Said Uncle: "Good gracious, what for?"

Jimmie: "Well, I want to draw a hippopotamus."

A magistrate observes that there is nothing that beats a good wife. Unless it's a bad husband.

## Fascinating Links in Canada's History

Ottawa, June 25 (Special to the Recorder) The diary of S. W. Prentiss an ensign of the 84th regiment in 1730 dealing with the wreck of the St. Lawrence brig on the island of Cape Breton forms one of the little known links in Canadian history, and yet which is probably the first detailed account of one of the hardships that many pioneers of Canada were forced to endure.

The account starts on November 17th, 1730 when the passenger embarked at Quebec for New York, being charged with despatches from General Handimand, commander in chief in that province to Sir Henry Clinton. Another schooner leaving at the same time, carried Ensign Drummond of the 44th regiment, with duplicates of the paper.

Unfavorable weather, cold, winds, water in the hold are all described by Prentiss, who told of four feet of water entering the ship and the crew deciding that they were too fatigued to pump any longer and that they would resign themselves to their fate. He luckily had some wine which he distributed among them and they consented to pump awhile longer. On December 2nd the gales had increased and ice formed on the sides of the boat. The schooner leaked badly; the storms were so bad that the accompanying schooner foundered with the loss of sixteen people. The surviving schooner coursed through the Magdalen Islands, and on occasion narrowly escaped being carried on to the rocks. The leaky boat by this time was filling rapidly and the crew attempted to plug the leaks with pieces of beer. Finally they gave up, and retired to the main deck, leaving one of their number tied to the wheel to navigate the ship. Prentiss expected the boat to sink and so after wrapping up his documents, tied them to his person. Eventually they reached land safely, however, and grounded on a sandy beach.

Prentiss, with servants and mate left the party in January in small boats and after two weeks struggle landed, almost exhausted, on the island of St. Paul, where Indians left them. The Indians returned to where the boat had foundered, but were only able to find three of the eight who had been left at the scene. On March 20th the Indians took all to Halifax from which port the voyage was successfully completed.

## News Notes

The Baseball team play an Exhibition game at Stirling tonight, Friday.

H. Fairbanks and T. W. Meldrum are taking a number of Boy Scouts over to Lethbridge this evening to the Scout Camp there.

#### SINUS TROUBLE

In our skulls, there are bony cavities lined with a delicate membrane which is continuous with the mucous membrane of the nose and throat. These cavities are the head sinuses. They are located above the eyebrows, behind the eye sockets, back of the upper part of the nose, on either side of the nose below the eyes, and behind the ears.

These sinuses have certain points in common. They are situated close to vital structures, the openings into them are very small and are shut off by any swelling of the lining membrane which may result from infection causing inflammation. They are frequently subject to infection which gains entrance along the membrane from the nose or throat, or which is carried to the sinus by the blood

stream from some focus of infection, as, for example, diseased teeth or tonsils. Infection causes inflammation, and one symptom of inflammation is swelling. The swelling shuts off the opening from the sinus. If the infection develops, pus is formed. The pus cannot drain out because the exit is blocked by the swelling, and, as a result, a serious condition develops. The infection may subside and the swelling go down, and then the pus is discharged. Otherwise there is an abscess locked in this bony cavity from which it may spread by the blood stream to other parts or destroy tissue and burst through into some vital area.

In order to avoid sinus trouble, everything possible should be done to prevent colds & other respiratory infections which may be the beginning of the condition. If such infections are contracted, then prompt and proper treatment should be taken to avoid the possible serious complications one of which is sinus infection. Bed is the place for a person with a respiratory infection. Rest, elimination, warmth and a suitable diet increase the fighting power of the body again at the invading germs. Care should continue during convalescence, as, in all probability, there are some germs still remaining active and ready to seize any opportunity to cause trouble.

A person who carries around a focus of infection in teeth or tonsils is always open to the danger of the spread of infection from such a focus. The removal of foci of infection is a measure of prevention against sinus infections.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

### THIS CANADA OF OURS

It is a long step from that Dominion Day in 1867 when Canada became a nation to the present time when as a world power Canada is rapidly forging to the front.

Beginning with the Federation of the Maritimes, Ontario and Quebec, each year has seen new territory acquired, law and order expanded, a virile, law-abiding resourceful citizenry growing up, and prosperity unbounded as a reward for thrift and diligence.

With a vision of the future, far ahead of the time, the steel ribbon of the transcontinental railway pushed from the Atlantic to the Pacific ocean, linking British Columbia into the union of Provinces, and spanning the Great Plains, inhabited then by buffalo, coyotes and the wandering tribes of Indians.

Following the completion of this Herculean task of tying together two oceans, growth was rapid indeed. Manitoba soon claimed her rights for a greater degree of self-government, and then in 1905 Alberta and Saskatchewan were carved out of the then existing Northwest Territories and received their autonomy.

On Tuesday next we commemorate the beginning by Sir John A. Macdougall of the brightest star in the Donald and the other Fathers of Confederation. In the midst of our hilarity and merry-making let us not forget the stalwart, noble and brave men and women who verily "built better than they knew" and bequeathed to us a heritage that needed no doctoring of lies and remarking, but only sane guidance to make us what we are today, and our possibilities for growth and progress are absolutely unlimited.

### WHAT ABOUT UNEMPLOYMENT?

Much is being heard, and will be heard, during the present election campaign regarding unemployment. Charges and counter-charges will be made. Opponent will try to place the blame on opponent for the unemployment we have in Canada to-day. There can be no doubt of one thing, that unemployment reveals a hidden weakness in the economic system under which this country and most countries live. It is not creditable to any highly organized community that periodically there should be manifestations of the disease of unemployment. Men able and willing to work should always be able to find work suitable to their abilities. The

effort of political parties should be directed to finding a permanent cure for the disease rather than to blaming each other for any renewed outbreak of it.

Unemployment at this time is not confined to Canada. It is not symptomatic of either Free Trade, Protectionist, or Low Tariff countries. It appears to be fairly general, France perhaps being freest of all from unemployment at the moment. The United States, that outstanding example of High Protection, is literally staggering under the burden of unemployment. Great Britain, at the other end of the scale so far as tariffs are concerned, has two millions of workers workless. The amount of unemployment in Canada at this time is infinitesimal as compared with some other countries for richer than ours. It is folly on our parts to blame governments. It may be convenient to do so. It may help politically so to do. But true statesmanship will spend more time finding remedies than ascribing blame.

It is not sufficiently realized that we are still paying the price of war. There cannot be such a terrific upheaval as that now labelled "The Great War" without dislocation of services, industry, and relationships. The destruction of property, of capital and of human life on such a colossal scale could not be carried on without terrible and lasting consequences ensuing. The bills have to be met. To squander resources in materials and man power as the fighting nations did in the years 1914 to 1918 could only mean that some day the effects of such squandering would have

(Continued on Page 3)

## Gum-Dipped Cords Stand the Acid Test

Even though Firestone cords are of superior strength and elasticity before they are built into Firestone Tires, they go through the Gum Dipping process for added strength and endurance.

Gum-Dipping—exclusive to Firestone Tires—saturates and insulates every fibre of every cord in the tire. This prevents the cords from chafing against each other and eliminates internal friction and heat—the greatest enemy to tire life.

Thus Firestone Gum-Dipped Tires have double reasons for their toughness, ruggedness and unequalled mileage—by actual test they hold all world's records for mileage and endurance! Specify Firestone Gum-Dipped Tires on your car. See your nearest Firestone Dealer today.

## UNEMPLOYMENT

to be suffered. When you couple along  
with this fact that a nation which  
profited most by the war, the United  
States, has got so much of the world's  
gold supply locked up in its treasury  
vaults and, along with that, has vi-  
tually refused to let its debtor nations  
pay their debts in goods but demand  
gold, it will easily be seen that there  
is a set of circumstances that explain  
it does not justify unemployment.

We Canadians should not permit  
ourselves to be deceived about unem-  
ployment. We should seek for under-  
lying causes rather than superficial  
ones. We should remember that Can-  
ada is one of the richest countries in  
the world from the point of view of  
the productivity of its soil and its nat-  
ural resources. No country so poten-  
tially rich as Canada, with vast nat-  
ural resources awaiting development  
should ever have to complain of un-  
employment. We should all bend our  
energies to the development of our  
heritage and not waste too much, if  
any, time cursing the politicians. Can-  
ada is a world-trading nation to-day.  
We have natural products to sell to  
every other country. With as few re-  
strictions as possible upon such trad-  
ing with other nations, and with hard  
work at productive effort by our peo-  
ple, Canada will soon overcome its  
present setback and rejoice in the  
permanence of prosperity.

## Only Frigidaire has the Hydrator

ONLY Frigidaire has the Hydrator which  
makes vitel vegetables fresh and  
crisp and keeps them that way until used.  
This is just one reason why three times  
as many Frigidaires are now in use as  
any other make of electric refrigerator.  
Frigidaire operates from central station  
current or individual electric plants.

## FIFTH FORTNIGHTLY CROP REPORT

ISSUED BY THE DEPARTMENT  
OF AGRICULTURE EDMONTON

Reports received from south of Cal-  
gary indicate that during the past  
fortnight several windy days with  
high temperature have checked growth  
which up to that time had been very  
satisfactory. Summerfallow had been  
standing up well but crops sown on  
spring ploughing were beginning to  
suffer. Little or no rain had fallen  
during this period but reports of  
rains over a large area on the night  
of June 20 creates a much improved  
crop prospect. Irrigation has been  
generally practiced throughout the  
irrigated areas.

In the central and eastern part of  
the province, rains within the past  
few days have done much to relieve  
the serious condition caused by con-  
tinued dry weather and high wind.  
Estimates place the damage from  
winds and cutworms as high as 40 p.c.  
Much of this land has been reseeded  
but in some cases this was impossible  
owing to the difficulty in securing  
seed. The western and northern areas  
have abundant moisture and the  
greatest need is for warm weather.  
Along the C.N.R. lines eastward from  
Edmonton and north of them, heavy  
rains have fallen. St. Paul reports  
five inches since June 1st and Ver-  
million 3.91 from June 10 to June 13.  
The Peace River district continues to  
have abundant moisture with slight  
damage from floods in the eastern  
part. Insect injury, particularly from  
cutworm, is greater than usual other-  
wise crop conditions are favorable.

Hay and pasture crops are report-  
ed to be doing well except in the area  
which has suffered so severely from  
high winds and lack of moisture.

The sugar beet crop is about 70 p.c.  
thinned. Some damage has been done  
by cutworms but otherwise the out-  
look is promising for a favorable pro-  
duction of beets.

# DOMINION DAY

1930 at RAYMOND

Big Parade at 9 a.m. Patriotic Program at 10 a.m.

Featuring--"The Parade of the Nations," "Boy Scouts in Action,"  
the Returned Men, Decorated Cars, Tractors, Floats, and one  
hundred and one other new and interesting events.

### THE NEWSPRINT INDUSTRY

A study of the present state of the newsprint industry brings to light some encouraging features, that is, encouraging as viewed in relation to world industry as a whole. The market for Canadian newsprint lies almost entirely in other countries, chiefly the United States, and an analysis of our exports and of American imports and consumption gives a good idea of the situation. The volume of exports for the first four months of 1930 was only 4 per cent. less than in the like period of 1929, practically all of the decline being accounted for by smaller shipments to the United Kingdom were appreciably less, they were almost entirely offset by larger sales to other overseas countries, notably Argentina. Notwithstanding a decline in advertising in the leading American centres, as well as in circulation and in the number of pages in Sunday editions, the total newsprint requirements of the United States appears to be very slightly, probably 1 per cent., below those of a year ago. The difference between this decline in American requirements and that in Canadian exports to the United States appears to be represented mainly by increased imports of newsprint from Scandinavia and Finland and by an increase in domestic production partly the result of larger imports of pulpwood, some of which came from Russia. However, such a diversion as this has had little effect on the operations of Canadian producers. The present price of newsprint cannot of course, be regarded as satisfactory but it has not been drawn into the trough of the recent general price depression, and there is the prospect of some improvement next year as the result of discussions between leading interests, producers, and buyers on both sides of the border. The Newsprint Service Bureau reports that last year the industry was operating at over 80 per cent. of rated capacity, as compared with 75 per cent. at this time, but the decline is due to the opening of new mills rather than to a following off in business; the latter rate, too, is the same as that aimed at when the rationalization plan was adopted in 1929, and it would be reasonably satisfactory if it could be maintained the year round. The position of the industry has of course been strengthened somewhat by the mergers which have taken place with a view to reducing costs. While, therefore, there is still room for improvement, the conclusion to be drawn from these facts is that to-day the newsprint industry occupies a favoured place in world business and that fundamentally it is strong.—Canadian Bank of Commerce Commercial Letter.

Lou King was in Waterton Saturday night when King's Canadians played their regular week-end dance job there.

### TRAIL BUILDERS HAVE BREAKFAST PARTY

The Trail Builders of the Raymond First Ward Primary were taken out at 5:30 Tuesday morning for their Annual Bonfire Breakfast Party. They cooked breakfast had several songs and yells and were back again at 8 a.m. to attend school. The teachers in charge were: Miss Georgia Mendenhall, Mrs. Verona Nalder and Mrs. C. Litchfield. The boys in the party were Charles Bascom, Francis Coombs, Fracom Selman, Winston Blackmore, Ross Mendenhall, Leonard Rolfsen, Sydney Romeril, Nowel Keith Clarence Richardson, Douglas Patterson, Bert Pleggrass, Burns Larsen, Reed Fawns, Jack Grey, David Wood, Willis Taylor, James Ross, Guy Christenson, Bert Boyson Wayne Patterson, Frances Selman, Baker Selman, Roland Weed and Arthur Hutchison.

Byron and Don Wall and party spent the weekend in Waterton Park.

Jack and Fred Brown, J. T. Simpson and wife were noticed among the Bachall fans at Magrath on Wednesday afternoon.

### "THE IDLE RICH"

You can't tie this comedy family knot!  
Four years as a stage-hit—now an all-talking film sensation!  
Bessie Love in more laughs and tears than the "Broadway Melody."  
A family spat with a happy ending!  
You'll laugh your collar-bone out of place at this talking comedy hit!  
"The Broadway Melody" made Bessie Love, Bessie Love made "The Idle Rich"—M-G-M made both.  
Are you one of the idle rich?  
Strictly a family affair flapper daughters can even brag their parents.  
The 100 per cent perfect dialogue picture at last!
